Mr. Allen noted that because the weather has been so mild, the Public Works Department is considering other ways to use the funds budgeted for snow removal. The funds are part of the City's contract with the County and must be used in connection with that contract.

New street lights have been installed at Deer Creek Road and Meadow Drive and will be operational shortly. Estimates for traffic calming on 2325 East are being obtained and the information will be passed on to the Council as soon as it is available.

Mr. Allen and City Engineer Brad Gilson met with representatives from UDOT to discuss the portion of the Big Cottonwood Canyon Trail project that was to be built under Wasatch Blvd., and to determine whether costs could be reduced enough to include that section back into the project. There are several areas where savings might be realized, but there will be additional engineering costs. Mayor Cullimore had authorized the City Engineer to proceed to obtain bids from the engineer for costs to change the project.
